

Pacific Heritage Academy
1755 W 1100 N
Salt Lake City, UT 84116

Aloha Parents, Families and Guardians,

Thank you for continuing to support our Country, State and School as we are all faced with many unknowns across the world. As this has impacted our very own Pacific Heritage Academy I wanted to assure you all that we continue to place your child's health and safety as our top priority. With the announcement of School's Dismissal effective Monday 3/16 schools will not be in session. We're grateful that we're not impacted by that sanction as we will be on Spring Break, but should it go beyond March 30th, we will need to share our plan to ensure all students access their education. This will be done through various formats, either online through Google Classroom, Facebook, DoJo etc., Workbooks/Packets for completion and with the use of ST Math, Imagine Learning and other online programs we provide here at our school.

Things to think about is ensuring our children have access to the internet where there may not be anything available at home. Please click the link to comcast where there is an opportunity for each family to apply for internet at a nominal price. This however, will be up to each family to apply for. The School has no affiliation to it at all.

This upcoming week we will be working on a plan to address the needs of our students to share with you all once we know what directive our Superintendent will provide.

Although our little school has been exposed to so many challenges this year, we pulled together and have gotten through every single one of them together. We appreciate you all and especially that you believe in us as educators that we will continue to do our very best to continue educating each child the very best we can.

Take care and please be safe.
